well-known to many people of that section
of the country.

well-known to many people of that section of the country.

Mr. McFadden was born on December 13, 1830, in Liverpool, Perry county, Pennsylvania, and was educated in the rural school of that district. His first contract was in constructing the Littlestown branch, now known as the Frederick division of the Pennsylvania Railroad. Since then he has been engaged in the largest and most difficult railroad construction in this State.

I know data is not dead but steeping Beneath the earth's cold sod; I urn my mind from weeping.

And put my trust in God.

In how stheat bulge of easting.

In her sitent place of costing,
With the rest of God's own dead,
With the rest of God's own dead,
Los a dear wife and a loved one,
Sleeping in her narrow bed.
Free from any strongling,
Calmiy did she passaway,
To the land of Heaventy glory,
Where it is deeper May But Idn's life has fled From her darling friends away; She sleeps the sleep of death Till the resurrection day. But so it is upon this earth.
The loveliest and the hest
Are off the first by death; consigned
Unto the grave's cold rest, The busy world rolls on, It scarcely sheats one tens. But long my thoughts to you will run, My sweet wife, Ida, 6 car.

"The widespread introduction of electricity as a motive power on our street talkays has closed one very important market for horses but every important market for horses but every important market for horses but every important in account for so rapid a decrease in the value of horsetish in the brief period of one year. We must look elsewhere for a solution of this problem, and we do not have far to look. On our streets, in our parks and on country roads we can daily note the rapid increase of the broycle the steel hoise and in the advent of this silent steed we shall find the answer to one question. Hoises are being superceded by the wheel in all most every direction. The great improvements in the construction of the wheel and the competition in its munifacture which have led to a general lower and more general ose for pleasure purposes and as these improvements continue the brycle is more and more being made available if r business pur poses. There are several hundred thousand begin to the same paper may well say in the lower that it is essential in provements and the construction of the market. It is essential in proving the first and the construction with the first tomatoes sold netted me six continue the first tomatoes sold netted me six contents for two and two and a half cents per for two and two and a half cents per subject to the market, when tomatoes were selling for two and two and a half cents per subject to the market, when tomatoes were selling for two and two and a half cents per subject to the market, when tomatoes were selling for two and two and a half cents per subject to the market, when tomatoes were selling for two and two and a half cents per subject to the market, when home the market to my form the first tomatoes sold netted me six cents per pound, and four weeks later on with the first tomatoes sold netted me six cents per pound, and four weeks later on with the first tomatoes sold netted me six cents per pound. Raral Yew Yorker.

Before you spend much tane on being made

The same paper may well say in the course of its admirable article that comparisons are odious, referring to the steel horse and the noble animal which

God created In intelligence the horse sible over the surface A failure of any is next to man, and shows more affection of these conditions will affect the growth of the hammers for his master than many a child does and yield of the crop When raised for his pirent. A plea has, however, especially for feeding out on the farm, hold expenses. You will find it invalufirst, it costs less than a horse, then it clover mixing a little in this way usually gives better results for hay then either and healiv its stabling costs nothing it is not atraid of the cars, and does not alone than grass, and especially timothy run away with its rider and break his neck-st least after he has learned how

There is this to be said in favor of the ncycle that as a means of transporta on to and from business for moderate distances, it is far less expensive and for ome reasons more convenient. It does not get tired of waiting, hungry and thirsty, and is proof against flies Ineed, there are no flies on the wheel, and for long and short distances, where the roads are fairly good, bicyclists say the orse is not in it" with the wheel for exhibitation and pleasurable exercise
This, of course, is to be taken with all
due grains of allowance for those who

due grains of allowance for those who are bicycle but not horseback riders

But the bicycle is not of any account when the weather and roads are bad Years ago when the steam railroads were first established it was prophesied that they would supercede the use of horses This never proved to be the United States, from statistics recently case for horses kept on increasing in gathered by its reporters. These show a numbers and value, and when street decrease in the number of horses, as cars were introduced a vast market was compared with January, 1894, of 02 per nu store for them While the car horses cent, an increase in milk cows of 10 bara hear done any with the horse per cent, a decrease in oxen and other

tected to any considerable extent, ex number of sheep of 6 11 per cent, a de-ROOFING & SPOUT G A SPECIALTY | cept in the value of the equines | But | cre see in number of swine of 1 040 782, the latter may be owing to the depression or 2 30 per cent Even with all the modern appliances of tivation has move friends among growsteam and electricity, there is a field yet ers than to cultivate the soil as deep as possible, yet plowing of corn land to be occupied by the noblest of all should not only be deep, but the furrows animals. What that field is the future should be so laid out as to afford as will speeduly decide

thorough drainage as possible If farm-' My young friend " said the millioners could be induced to also subsoil their aire, frowning ' you admit that you are corn land, they would find quite a difference in the yield, both of corn and

said that during the season of 1894 he sold nearly 11,500 quarts of strawberries from one and three-rourths acres, and they netted him nearly \$1,000

One who has had considerable experience in growing berries thinks that generally it is better to keep a strawperry bed only one season, but if kept longer the best treatment is burning oon after fruiting

It is reported from Maine that an orchardest put the pigs into a failing orchard and they tore up the tough sod to the great benefit of the trees

Feed as large a variety of food as possible The dairy cow loves a liberal bill of fair If possible, feed ensilage, if not, in its place hay should be cut and moistened and the grain ration thoroughly mixed therewith. Grain mixed with ensulage or moistened hay is of more value than fed dry, and withal is much safer, and can be fed in large

A BELLEFONTE girl is 13 years old She was born on the 13th day of March There are 13 letters in her name, and she was recently confined to her bed 13 days. The attending physician called on her 13 times, and he reports that she had 13 chills, the doctor's bill was \$13

Two Lives Saved — Mrs Phoebe Thomas, of Junction City, IR, was told by her doctors she had Consumption and that there was no hope for her, but two bottles Dr King's New Discovery completely cured her and she anys it saved her life Mr Thos, Eggers, 139 Florida St San Francisco, suifered from a dreadful cold, approaching consumption, tried without result everything eise then bought one bottle of Dr King's New Discovery and in two weeks was cured. He is naturally thankful It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at J. M Hubers Drug Store Regular size 50c and \$1.00 [6]
